-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1, 2, 4-9, and 11-18 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The limitation regarding the user to not touch any portion of the air conditioner system other than the handle that is found in claims 1, 6, 9, 16, 17, and 18 is considered to be new matter. The limitation added to claims 4 and 11 in the amendment filed April 11, 2005 is also considered to be new matter. Claims 2, 4, 5, 7, 8, and 11-15 depend from claims containing new matter and contain all of the limitations of the claims from which they depend. Thus, claims 2, 4, 5, 7, 8, and 11-15 are rejected for the same reasons as the claims from which they depend.

***Response to Amendment***

3. The 112-first paragraph rejection of claims 1, 2, 4-9, and 11-18 presented in the office action mailed May 12, 2005 stands.
4. The 112-second paragraph rejection of claims 8 and 11 presented in the office action mailed May 12, 2005 is withdrawn in light of the amendment.

Art Unit: 1753

5. The double patenting rejection presented in the office action mailed May 12, 2005 is withdrawn in light of the filing of a terminal disclaimer.

***Response to Arguments***

6. Applicant's arguments filed September 6, 2005 have been fully considered but they are not persuasive.

7. Applicant has argued that there is indeed support in the specification as originally filed so that no new matter exists. Specifically, Applicant directs me to Figures 2 and 2A as well as paragraph 35. I disagree. 35 U.S.C. § 112, first paragraph specifically requires "The specification shall contain a written description of the invention... in such full, clear, concise, and exact terms..." In the instant case, there are certainly no "clear, concise, and exact terms" as required by the statute. You are really just trying to spin an interpretation of a figure into a limitation, but there is nothing in the specification or the figures that *clearly* shows or discusses how the user will not touch any portion other than the handle. Therefore, I still feel that the limitation is new matter.
